Professional use

Buffalo, the new mowing beasts

FASTER: mowing and collection speed up to 15,000 sqm/h. Rear central ejection without jamming. 100 or 124 cm cutting deck. 600-litre box with hydraulic emptying. Tipping height up to 1,80 m from the ground. Improved collection: stable engine speed in all mowing conditions.

FURTHER: compact and manoeuvrable. Excellent behaviour on slopes: new disc brakes that double the braking torque. Highly drivable power steering for effortless control. With ROPS anti-overturn system.

LONGER: in all seasons, on all surfaces. Petrol or diesel engine. Hydraulic transmission with two or four drive wheels. New-generation angle transmission and new, more efficient blade clutch.

User's speech:

"They are highly robust and don't let anybody down. Repairs are minimal, so our workshop costs are low." **Joseph Rowntree Housing Trust**

Ride-on mowers

Buffalo 124 cm

Buffalo, the new mowing beasts

With their 1,24 m overhanging cutting decks and 23 HP Vanguard two-cylinder engines, the new Buffalo 124 mowers boast a theoretical efficiency of 15,000 sqm/h, an unparalleled weight to power ratio and above all excellent value, both in terms of purchase and use and ownership.

Available with 2 or 4 drive wheels

User's speech:

"It's been excellent in the wet. If it wasn't for the tyre marks it would leave, you could even use it to cut and collect in 2" of water it's that good!"

Tom Hepburn, Team Leader Joseph Rowntree Housing Trust

EFFICIENT

- Mowing and collection speed up to 15 000 sqm/h.
- 1,24 m cutting deck.
- Efficiency comparable to 1,50 m machines.
- Tipping height up to 1,80 m from the ground.
- Complete emptying of the box.
- Hydraulic transmission for the two rear wheels (HVHP model) or all four wheels (HVHPX model).
- Differential lock for the two drive wheels.
- 23 HP gasoil engine (Vanguard two-cylinder engine, zero emission of fine particles, fitted with a catalytic converter).
- Multifunctional instrument panel.
- Electromagnetic blade clutch with integrated brake.

COMFORTABLE

- User-friendly controls grouped near the driving seat, within the driver's reach.
- Power steering.
- High drivability: hydraulic transmission.
- Comfortable seat with a high backrest and depth adjustment for an ideal driving position.
- Easy to maintain.
- Silent: acoustic pressure 85 dB(A) at the driver's seat, and acoustic power below 100 dB(A).

ROBUSTNESS

Built to last

- Chassis made of two mechanically welded subassemblies, assembled by bolting and fully treated for corrosion resistance.
- Minimum maintenance and guaranteed uninterrupted hours of use.
- Hydraulic movement: longer life and more reliable transmission systems.
- Shear bolts mounted on the blades to absorb violent impacts
- Mastershock cutting deck: very light and doesn't rust.
- Collection box in non-rotting fabric mounted on reinforced tubular structures.

VERSATILE

All seasons, all surfaces

- The snow blade associated with the snow chains and the spreader allows use in the winter.
- Multiple mowing: Collection and cutting thanks to the baffle.
- Mowing for all surfaces: compactness, an ultra-short turning radius, no rear overhang and exceptional efficiency make these machines ideal for small and large areas alike.
- Collection in all conditions
- Road homologation kit.

The + products:

- Collection in all conditions
- Compact
- Secure
- Rugged
- Comfortable
- Versatile
- Easy maintenance
- Gasoline engine equipped with a catalytic convertor

Ride-on mowers

Accessories Buffalo Family

All mowing in all seasons.

The Buffalo 100/124 range of accessories covers the principal maintenance needs of green spaces and roads.

For collection, mulching, grass cutting, spreading, snow clearance or road cleaning, Etesia offers simple and effective solutions that can be fitted in no time on standard models.

ATTACHMENTS BUFFALO 124/100

GREEN SPACE MAINTENANCE

Mulching

Outstanding mulching thanks to the mulching kit delivered with the Buffalo family.

Deflector

The deflector, which is fitted – without the need of tools – in place of the grassbox, enables you to mow without collecting the cuttings, even in extremely difficult conditions.

Spreader

For gardening work (spreading fertilizer) or winter work (spreading grit or sand).

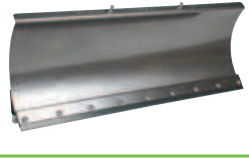

Buffalo 124

Buffalo 100

SNOW EQUIPMENT

Snow blade

For speedy, safe snow clearance, the hydraulically operated 135 cm snow blade can be angled to the right, left or lifted.

Spreader

For gardening work (spreading fertiliser) or winter work (spreading grit or sand).

TRANSPORT

Tow bar

The easy to attach tow bar, will pull trailers up to 500 kg in weight (maximum towing weight). The tow bar has an electric socket for powering trailer lights.
